DETAILED ACTION

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.
2. Drawings filed on 10/06/2005 are accepted.
3. Applicant's arguments, see pages 9-11, filed 10/06/2005, with respect to the rejected claims have been fully considered and are persuasive. The rejection of claims 1-12, and 18-22 has been withdrawn.
4. Claims 1-22 are allowed.

The following is an examiner's statement of reasons for allowance: the primary reason for allowance of the (apparatus and method of) claimed invention is the inclusion of, inter alia, a circuitry configured to, during a setting phase, reduce the value of at least one capacitor with respect to its normal operating value. None of the prior art of record, either consider alone or in combination, discloses an apparatus for (or a method of) correcting an offset of an amplification and low pass filtering chain having a cut-off frequency depending on a value of at least one capacitor that includes the reduction the value of the at least one capacitor with respect to its normal operating value. Thus, claims 1-22 are allowed.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
